The Invitation

Pierceiron, the chief Lord of Waterdeep, has called the party to a meeting and gives you the following letter:

Pierceiron,

I have investigated your concerns, my friend, and I am afraid the news is not good. More than that, it is maddening and frustrating. The signs of evil are clear, as you know, and growing. Before I left I heard rumors of assassins in the city, by Tyr. In Waterdeep! I am not sure what to believe anymore.

I have visited both Amn and Calimshan, these cities have given us trouble in the past. I suspected that our problems now might be their doing, but I find no evidence of it. My informants seem clear on this point at least. None have ever heard of our elusive Xanathar. No, these traces of evil are not from outside Waterdeep, but from within... or perhaps below? My magics did detect the evil, but not its source. All of our attempts to find its cause have been for naught.

The only thing we have "learned" is that the name Xanathar recurs with grave persistence. Where have we NOT looked, Paladinin my friend? Where is it the City Watch never patrol? Where would YOU hide from the Watch and the Lords of Waterdeep without leaving the area of the city? I can only think that we are overlooking something under our very noses.

I will return to the Council soon, my investigations here are clearly fruitless. But do not wait for me — hire adventures as the others have suggested. They may not have our biases. Perhaps a new outlook will help.

Your trusted friend,

Khelben

The Eye of the Beholder World

Eye of the Beholder is an all 3-D, Legend Series role-playing adventure based on the popular Advanced Dungeons & Dragons, 2nd Edition game rules and an original story created for this game. The action takes place in the sewers and catacombs beneath the City of Waterdeep in TSR's forgotten realms, game world.

Everything in Eye of the Beholder is from your point of view. Watch the walls pass by as you move through the sewers beneath the ancient city of Waterdeep. Pick up items by grabbing them. Open doors with keys or by pressing buttons or pulling release levers. See monsters draw nearer to you and close for battle. Attack by using the weapons your characters have in their hands, or cast spells by using your clerics and mages spells. Those in the front of the party may attack with weapons such as swords and maces, while characters in the rear ranks may attack with spells or ranged weapons such as bows.

A key to playing Eye of the Beholder is understanding the difference between TAKE, USE, and SELECT. TAKING involves actions such as picking up or dropping items. USING involves actions such as attacking monsters with weapons, or indicating that a cleric or mage wishes to cast a spell. You can only Use items from the main Adventure Screen. SELECTING involves choosing buttons such as spell Level Buttons or the Camp Button, or choosing from lists such as picking spells to cast or memorize.
Building a Party

You must generate four characters to have a complete party. A good mix of races and classes is essential to completing the adventure. Warrior classes such as Fighters, Paladins, and Rangers are needed to deal with the many horrors that block your path. Clerics and Mages support the quest with their magical abilities — clerics have powerful healing and protective spells, while mages attack with mystic force. Thieves are handy when progress is barred by a locked gate for which the party has no key.

Generating Characters

To make a character Select one of the four Character Boxes. After you have chosen a box, Select the new character’s race and gender, class, alignment, and portrait. Generally you can change your last choice by selecting the Back Button on the bottom right of the screen.

Race

There are six races, or species to choose from:

- Human
- Elf
- Half-Elf
- Dwarf
- Gnome
- Halfing

Each race has unique advantages and characteristics. Different races are eligible for different classes and each has unique modifiers to attributes such as strength or wisdom. For more information see the Races section on page 28.

Class

Classes are occupations. Some races have the option of having more than one class simultaneously, but there are six basic options:

- Fighter
- Ranger
- Paladin
- Mage
- Cleric
- Thief

A variety of classes is needed in a party to get all of the skills needed for the adventure. Paladins will not join parties with evil characters. If you already have an evil party member you cannot generate a Paladin. For more information see the Classes section on page 31.

Alignment

Alignment is the philosophy by which a character lives and deals with the world. There are nine possible alignments, although a character’s class may limit the selection. Paladins, for example, can only be Lawful Good. The choices are:

- Lawful Good
- Lawful Neutral
- Lawful Evil
- Neutral Good
- True Neutral
- Neutral Evil
- Chaotic Good
- Chaotic Neutral
- Chaotic Evil

Evil characters cannot join parties with paladins. If you already have a Paladin you cannot generate an evil character. For more information see the Alignment section on page 35.

PORTRAIT
You must Select the picture, or Character Portrait, that represents the character in the game. During the game the position of the portrait on the screen indicates if a character is in the front or rear ranks of the party. Select the portrait to examine characters’ Equipment Screens.
Select the arrows to display sets of portraits, and then Select your character’s Portrait.

ABILITY SCORES
Ability scores are generated for the character after you Select the Character Portrait. These are a summary of the character’s natural abilities and faculties. Each character has the following scores:

- Strength
- Intelligence
- Wisdom
- Dexterity
- Constitution
- Charisma

These scores can be modified or generated again after you Select a portrait for the character. For more information see the Ability Scores section beginning on page 36. After attribute scores are generated options to keep or modify your character are displayed. REROLL generates a new set of ability scores for the character.

KEEP Accepts the character into the party.

Name your character after selecting KEEP and the new character will join the adventuring party.

Building a Party cont.

WHEN THE PARTY IS COMPLETE
When you have generated four characters that you are happy with select the Play Button below the Character Portraits to begin the game.

CHARACTERS THAT JOIN YOUR PARTY (NPCs)
In addition to the four regular characters, up to two more non-player characters (NPCs) may join the party at a time. As you adventure these characters may ask to join your characters. If you accept, they join and act as any other characters under your control. Occasionally NPCs offer advice or give you information. NPCs may leave your party or you may drop them at any time.

View Window This is your window to the world. Here you can see the area around your party, items lying in the dungeon, and attacking monsters.

1. **GATE** Gates occasionally block your path. Each gate may be different. For example, some you can open simply by pulling a lever or pressing a button, others may require a key or lockpick.

2. **BUTTON** Buttons and levers can be found on the walls near some gates.

3. **ITEM** Treasure, food, weapons, and other items can be found throughout the dungeon.

4. **MOVEMENT BUTTONS** These move and turn the party.

**CHARACTERS**

Your adventuring party is made up of up to four characters, each with his or her own unique strengths and weaknesses. Every character has a race, class, and set of attribute scores. Race is the character’s species and there are six races to choose from: dwarf, elf, gnome, half-elf, halfling, and human. Class is the character’s occupation. Some races are allowed to have more than one class simultaneously, these are called multi-class characters. The basic choices of class are: Cleric, Fighter, Mage, Paladin, Thief or Multi-class. Attribute scores define the character’s physical and mental prowess, and they are: Strength, Dexterity, Intelligence, Wisdom, and Charisma.

**RACES**

**DWARVES** are a short, heavily built demi-human race. They stand between 4 and 4 1/2 feet tall, but generally weigh more than 150 pounds due to their heavily muscled build. Dwarves live from 350 to 450 years. They are famous for their skill in all manner of crafts, from metalworking to stone masonry. Dwarven weapons command high prices in markets around the world, and pieces of their fine jewelry are literally part of every king’s ransom. In addition to intricate workmanship, dwarves are known for tremendous courage and tenacity that borders on the fanatic.

Dwarves are by nature non-magical, and have innate resistances to spells as well as many poisons.

- Ability Score Modifiers: Constitution +1, Charisma -1
- Allowable Classes: Cleric, Fighter, Thief, Fighter/Cleric, Fighter/Thief
- Level Restrictions: Cleric 10th-level

**ELVES** are slimmer and somewhat shorter than the average human and are easily distinguished by their fine features and pointed ears. They often live more than 1,200 years. Elves do not like the confines of civilization. They delight in natural beauty, singing, and carefree playing. To outsiders, elves often appear to be haughty and cold, although they are known to be fiercely loyal to friends.

Elves of all classes are taught archery from a very young age, and they receive a +1 bonus with any type of bow, and long or short swords. Elves are highly resistant to any type of Sleep or Charm spell.

- Ability Score Modifiers: Dexterity +1, Constitution -1
- Allowable Classes: Cleric, Fighter, Mage, Ranger, Thief, Fighter/Mage, Fighter/Thief, Mage/Thief, Mage/Thief, Fighter/Mage/Thief
- Level Restrictions: None

**GNOMES** are distant kin of the dwarves, although the latter are loathe to admit the relation. Gnomes typically live to be around 600 years old. Where dwarves are taciturn and hard working, the gnomes are more carefree and lively. Never turn your back on a gnome, however — they are diabolical and enthusiastic practical jokers.

Gnomes are fairly magic-resistant, and gain a +1 combat bonus against kobolds.

- Ability Score Modifiers: Intelligence +1, Wisdom -1
- Allowable Classes: Cleric, Fighter, Thief, Cleric/Thief, Fighter/Cleric, Fighter/Thief
- Level Restrictions: Cleric ninth-level

**HALF-ELVES** inherit several advantages from their mixed parentage. They resemble their elvish parents in facial appearance, but half-elves are taller and heavier than most elves,
approaching human norms. While not as long-lived as true elves, they live, on average, about 250 years. For the most part, half-elves can travel and mingle in both elvish and human company, although rarely are they truly accepted in either.

Half-elves have the greatest selection of class combinations of any of the races. They inherit an innate resistance to Sleep and Charm spells, but to a lesser extent than full-blooded elves.

- Ability Score Modifiers: None
- Allowable Classes: Cleric, Fighter, Mage, Ranger, Thief, Fighter/Cleric, Fighter/Mage, Cleric/Ranger, Cleric/Mage, Thief/Mage, Fighter/Mage/Cleric, Fighter/Mage/Thief
- Level Restrictions: None

HALFLINGS are a diminutive people famous for their congeniality and love of comfort. Their facial features are round and broad and they typically have curly hair. Halflings are fairly short, a little shorter than dwarves, and quite plump. They are sturdy, industrious, and generally quiet and peaceful. Their burrow homes are well furnished, and their larders are always well stocked. Halflings are well liked by nearly all other races. Gnomes especially like the halflings, whom they feel are kindred spirits.

Halflings have innate magic resistance and have a +1 bonus with slings.

- Ability Score Modifiers: Strength -1, Dexterity +1
- Allowable Classes: Cleric, Fighter, Thief, Fighter/Thief
- Level Restriction: Cleric eighth-level, Fighter ninth-level.

HUMANS are the most adaptable and, hence, most prevalent race. Humans vary more than any other race in size, skin color, and hair color. Typically they live around 70 years. Human societies are more diversified than any of the other races, and also more aggressive and acquisitive. Where the longer-lived races wait patiently and take a long-range view of the world, humans tend to muster their efforts for immediate gain.

- Ability Score Modifiers: None
- Allowable Classes: Cleric, Fighter, Mage, Paladin, Ranger, Thief
- Level Restrictions: None

CLASSES

Each class has its own unique strengths, and each offers valuable talents and skills to a party. Fighter-types — Fighters, Rangers, and Paladins — are needed to battle past the creatures that stand in the way of victory and glory. Thieves are very handy when the party runs across traps. Mages offer powerful spells, and clerics can both fight and heal the wounded.

Each class has one or more prime requisites, or ability scores that are important to the class. A character with prime requisite score(s) of 16 or greater advances somewhat faster in levels.

CLERICS are warriors of a sort, men and women who carry their faith in their weapon-arms as well as their hearts. Cleric training includes the use of magic and a limited selection of weapons. They can use any type of armor, but their selection of arms is limited to blunt, impact-type weapons such as maces and flails.

Cleric magic differs from mage spells in that cleric magic is of divine origin. Clerics do not carry tomes of spells and rituals. They receive power directly from the gods and cast spells
through symbols. While mages study and pour over their spells to imprint the rituals in their minds, clerics enter a meditative trance where they are receptive to the divine magic. Clerics also have powers against undead monsters such as skeletons and zombies. Clerics automatically attempt to turn undead, driving them away, or possibly even destroying them. As clerics advance in level they gain more spells and greater power against undead. Clerics with wisdom of 13 or higher gain extra spells (See the Cleric Wisdom Bonus table on page 42).

- Prime Requisite: Wisdom
- Races Allowed: Human, Dwarf, Elf, Gnome, Half-Elf, Halfing
- Weapons Allowed: Mace, Flail, Staff, Sling

**FIGHTERS** are warriors, experts in weapon-skills and battle tactics. Fighter training includes use and maintenance of all manner of weapons and armor. Fighters can use any type of armor or weapon without restriction. Whether for glory or profit, fighters can be found in the thickest parts of battles, where only skill and bravery triumph.

Fighters cannot cast any type of magical spell, nor would they as a rule want to, preferring to rely on a strong sword-arm. They can use any type of magical weapon or armor and magic items such as rings and gauntlets. Fighters gain speed as well as skill when they go up in levels. High level fighter-types including fighters, paladins and rangers, are able to attack more often with melee weapons such as swords, than other types of characters.

- Prime Requisite: Strength
- Races Allowed: All
- Weapons Allowed: All

**MAGES** are individuals trained in the arcane and mysterious secrets of magic and spellcasting gestures. Mages tend to be poor fighters, preferring to rely on their intellect and magical abilities. While warriors and clerics may charge to the fore of a battle, mages tend to hang back and pummel foes with mystic attacks. Mages tend to be reclusive and spend most of their time researching new spells and ancient magical lore.

Mages cannot wear any type of armor. This is because they have no training or aptitude for martial skills, and armor is restrictive and interferes with some spellcasting. Also because of their lack of martial inclination, mages are severely limited in the weapons they can use. Mages become very powerful as they increase in level.

- Prime Requisite: Intelligence
- Races Allowed: Human, Elf, Half-Elf
- Weapons Allowed: Dagger, Staff, Dart

**PALADINS** are elite warriors who battle in the name of Truth and Justice. Lawfulness and good deeds are their meat and drink, and they lead lives of such chaste piety that even clerics stand respectful. Paladins will not join a party that includes evil characters. Like other high level fighter-types, paladins are able to attack more often with melee weapons, such as swords, than other types of characters.

In addition to skill in all types of arms and armor, paladins have several divine magical abilities conferred for their piety. Paladins have extra resistance to magical attacks and poison. Paladins are immune to all disease. Paladins can heal once per day (two hit points per level of advancement). They are always surrounded by a Protection Versus Evil aura that encompasses the entire party. All evil attackers suffer a small penalty to their attacks if a Paladin is in the party.
At third-level, Paladins can turn undead as a cleric two levels below their own. At ninth-level, paladins gain the ability to cast certain cleric spells, although they can never use cleric scrolls. Paladins pray for their spells and cast them exactly as clerics.

Paladins can use the following cleric spells: Bless, Cure Light Wounds, Detect Magic, Protection From Evil, Slow Poison.

- Prime Requisites: Strength, Charisma
- Races Allowed: Only Human
- Weapons Allowed: All

**RANGERS** are trained hunters, trackers, and woodsmen. They are taught to live as much by their wits and skills as by their swords and bows. Like fighters, rangers can use any type of weapon or armor, although heavy armor interferes with their special abilities.

When wearing studded leather or lighter armor, rangers can fight with weapons in both hands without any penalties. Like other high level fighter-types, rangers are able to attack more often with melee weapons, such as swords, than other types of characters.

- Prime Requisites: Strength, Dexterity, Wisdom
- Races Allowed: Human, Elf, Half-Elf
- Weapons Allowed: All

**THIEVES** are hard to classify as a group. Some are malcontents, who prey on the unsuspecting. Others are basically good, but are a little wanting in strength of character. Adventurers long ago learned that a skilled thief in the party increases overall party survival — especially when dealing with trapped locks. As thieves gain levels they become more proficient at picking locks, and avoiding any attached traps.

Because they need to move freely and quietly thieves’ abilities are restricted when they wear anything except leather-type armor. Thieves have a greater choice of weapons than clerics or mages, but less than fighter-types.

- Prime Requisites: Dexterity
- Races Allowed: All
- Weapons Allowed: Any

**Alignment**

Alignment describes a character’s outlook and how he deals with life. The possibilities encompass a range of views from believing strongly in society and altruism (Lawful Good) to completely selfish and without any regard for others (Chaotic Evil). Alignment is presented in two parts: the character’s world view and personal ethics.

**World View**

Lawful indicates that the character understands himself to work within the frameworks and rules of a society.

Neutral indicates that the character moves between valuing society and its rules, and the value of the individual.

Chaotic indicates that the character values the individual (himself) above society and others.

**Ethics**

Good indicates the character tries to act in a moral and upstanding manner.

Neutral indicates the character leans towards “situational ethics,” evaluating each set of circumstances.
Evil indicates the character acts either with no regard for others, or in an overtly malignant manner.

**Ability Scores**

The base for each attribute score is a number between 3 and 18. Racial modifiers are automatically factored into the base number by the computer when any value is shown. The maximum value for scores is 19, except fighters’ strength, which may have a percentile value added to indicate exceptional prowess. Higher values always offer greater advantages.

**STRENGTH** measures physical power, muscle, and stamina. Fighter-type characters (Fighters, Rangers, and Paladins) can have exceptional strengths greater than 18. Exceptional strength is indicated by a percent value (01, 02, 03... 98, 99, 00) following the base strength (for example 18/23). High strength allows characters to fight better. With hand weapons such as swords or maces they hit more often and get damage bonuses. Halflings, even halfling-fighters, cannot have exceptional strengths.

**DEXTERITY** measures agility, eye-hand coordination, and reflex speed. Characters with high dexterity have bonuses to armor class, which indicates how difficult they are to hit. Good dexterity also gives bonuses when using missile weapons such as bows or slings. Dexterity of 16 or higher counters some of the minuses fighters suffer when using weapons in both hands.

**CONSTITUTION** measures fitness, health, and physical toughness. High constitution increases the number of hit points a character gets. Hit points measure how difficult a character is to incapacitate or kill.

**INTELLIGENCE** measures memory, reasoning and learning ability. Intelligence is the prime requisite for mages, where their skill and very survival hinges on learning and using the knowledge of magic.

**WISDOM** measures a composite of judgment, enlightenment, will power, and intuition. Characters with wisdom of 7 or less are more susceptible to magical spells, while wisdom of 15 or greater lends some resistance. Clerics with wisdom of 13 or greater get extra spells (see the Cleric Wisdom Bonus table on page 42.)

**CHARISMA** measures personal magnetism, persuasiveness, and ability to assume command. Characters with high charisma are useful as spokespersons when dealing with NPCs you may run across during your adventures.

**Other Characteristics**

In addition to race, class, and attribute scores, characters have several other characteristics that may change during the game: armor class (AC), hit points, experience points, level and alignment.

**ARMOR CLASS** (AC) measures how difficult a target is to hit and damage — the lower the AC value, the harder the target is to hit. Good AC can indicate different things. A character might be difficult to hit because he is outfitted with magical armor, while a monster might have the same AC because it is small and fast. AC changes only when characters find and use new armor or shields. High dexterity improves a character’s AC.
**SPELL DIRECTION**

The following Spell Descriptions contain Range and Duration data. Range and Duration are defined as follows:

**Ranges:**
- 0=Target must be in same square as caster (can only affect party members).
- Close=Target must be in adjacent square.
- Medium=Target can be two squares away.
- Far=Can hit any visible target.

**Durations:**
- Instantaneous=Flash or instant effect.
- Short=Effect is very temporary, perhaps as short as a single combat.
- Medium=Effect lasts for some time allowing the party to move and explore a little.
- Long=Effect lasts quite a while.
- Permanent=Effect lasts for the entire game.

**Hit Points** measure how difficult a character or opponent is to incapacitate or kill — higher values are better. Every time an attack gets past armor and defenses, it does damage that is subtracted from the target’s hit points. If the target takes too much damage, he will die or become unconscious.

**Experience Points** (EXP) measure how much a character has accomplished. EXP are earned for killing monsters, finding treasure, and completing parts of the adventure. Having prime requisite scores of 16 or greater increases experience earned by 10%. Characters increase.

**Player References**

in level when they earn enough EXP. All characters start with some EXP, and these initial points are distributed evenly throughout all of a character’s classes if he is multi-class.

**Level** measures how much a character has advanced in his or her class. Whenever a character has earned enough EXP to advance in level, he gains hit points, combat ability, and resistance to the effects of poisons and magical attacks. Mages, clerics, and high level paladins gain the ability to memorize a greater number of spells and cast new spell levels. Level advancement happens automatically whenever a character has enough EXP. Level Advancement tables for all of the classes begin on page 42.

BESTIARY
Beholder:
Also known as Eye Tyrant or Sphere of Many Eyes, this solitary horror is most often found underground. Beholders have a globular body and move with an innate levitation. Atopt the beholder’s spherical body are ten eye-stalks, and in the center is a single large eye and a gaping maw adorned with several rows of razor-sharp teeth. Each of the eye-stalks has a unique magical ability — the beholder can cast a different spell with each. Fortunately, not all of the eyes can be brought to bear on a given target. Beholders are covered with hard, chitinous armor, making them relatively tough to hit in combat.

Displacer Beast:
The displacer beast resembles a blue-black puma with two powerful tentacles growing from its shoulders. The tentacles are tipped with sharp, horny protuberances that can punch
through even steel armor. The beasts range in size from 8 to 12 feet in length and can reach upwards of 500 pounds. The beast’s name describes its most dangerous feature — an ability to “displace” its image up to three feet from its actual location. This makes the displacer beast very difficult to hit in combat.

**Drider:**
This strange creature has the head and torso of a drow (see below) and the lower body of a giant spider. When drow of exceptional ability reach the sixth-level, they are subjected to a test by the drow’s dark goddess. Those who pass the test are elevated to special services. Those who fail are transformed into driders and cast out of drow society. Driders can generally cast spells as well as fight with weapons.

**Drow:**
In their long-past history, the drow were part of the elf community that still roams the world’s forests. Something turned these elves evil, and drove them from the sunlight into their present subterranean caves and cities. Drow are shorter and more lightly built than men. They have black skin and pale, usually white hair. All drow can cast some magic spells, and they often carry swords of adamite alloy.

**Dwarf:**
These stocky demi-humans stand between 4 and 4 1/2 feet tall and weigh between 130 and 170 pounds. Dwarves are very tough warriors, and are resistant to both poisons and magical attacks.

**Flind:**
This humanoid creature vaguely resembles a heavily muscled human with a canine head. Flind are of average intelligence, and can be found both above-ground and in caverns.

**Golem:**
A golem is an artificial creature animated by an elemental spirit. The process of creating a golem begins with the creation of a body made of stone, iron, clay, or even flesh. After the body has been assembled, the creator must undergo a lengthy ritual to bind the elemental to the body, and subordinate its will to the new master. The ritual is a closely guarded secret of a handful of powerful wizards. Golems are utterly fearless, and battle with single-minded determination.

**Hound:**
The hound is a very large, rust-red or brown beast with burning red eyes. The beast’s markings, teeth, and tongue are soot-black. The baying of a hound has been described as “eerie,” “hollow,” and “disturbing.” The beast attacks with flaming breath and piercing teeth.

**Kenku:**
These beings resemble humanoid hawks, with both arms and wings. Their height ranges from five to seven feet, their feathers are predominantly brown with white under-feathers, and their eyes are brilliant yellow. Kenku all have natural thieving abilities, and take perverse pleasure in annoying and inconveniencing human and demi-human races.
**Kobold:**
Well known for cowardice and a wide sadistic streak, kobolds are usually only dangerous in large groups. Kobolds stand about three feet tall, and their dark rusty hides are somewhat scaly. The smell of a kobold has been described as "a cross between a wet dog and a swamp." They have an ancestral hatred for gnomes, and attack them on sight. Kobolds generally prefer to attack other opponents en masse, or from a distance.

**Kuo-Toa:**
This is an ancient race of fish-men that now dwell in subterranean caverns. The kuo-toa harbor an age-old hatred for surface dwellers and their sunlit world. These creatures have a vaguely human body, topped with a wide-mouthed fish head. They have short legs and long, three-fingered hands. Kuo-toa wear no clothing, only a leather harness for their weapons and few belongings.

**Leech, Giant:**
This is a slimy, slug-like parasite that feeds on its victim’s bodily fluids. Leeches wait in the mud, sludge, and slime of swamps and sewers for unsuspecting prey. The giant leech rears up from the ooze when it detects the presence of a living creature, and attempts to subdue its prey.

**Mantis Warrior:**
Also called Thri-Kreen, this is a carnivorous insect man. A mantis warrior resembles a man-sized preying mantis. Mantis warriors are often armed with a peculiar, viciously bladed polearm. The name for this weapon has never been translated into the

**Mind Flayer:**
Also called Illithid, this is one of the most feared of the subterranean dwellers. Mind flayers feed on the very minds of sentient beings. Mind flayers are a slime mauve color, stand about six feet tall, and adorn themselves with flowing robes decorated with images of suffering, death, and despair. Their faces resemble octopi with two large, white, pupilless eyes.

**Rust Monster:**
This is a subterranean creature with an appetite for metals of all kinds. Rust monsters are about five feet in length, and have a long, armored tail and two prehensile antennae. The tail is tipped with a strange paddle-like appendage. The creature is normally placid and inoffensive — until it smells metal. Whenever the creature detects the scent of food (armor, weapons, and the like) it charges. Whenever the monster hits metal with its antennae, the metal corrodes and "feeds" the creature. Even magical weapons can be susceptible to the rust monster’s attack.

**Skeleton:**
This is a magically animated body, created and controlled by a powerful evil wizard. Skeletons are one of the lesser undead monsters, though powerful skeletons have been created from the bodies of powerful warriors. Because they have no intelligence or will, skeletons are immune to spells such as Sleep, Charm, and Hold. They are also utterly fearless, and never retreat from a fight.
**Spider, Giant:**
This predator haunts many regions and helps to keep down the level of pests such as kobolds and adventurers. Giant spiders weave webs for unwary victims, and attack with poisonous bites.

**Xorn:**
This creature is a native to the elemental plane of Earth, and feeds on precious metal deep underground. The wide body of a xorn is made of a pebbly material, and its mouth is located at the top of its head. Three talon-clawed arms are positioned symmetrically around its body. In the few reported cases of xorn attacks, the creatures seem to have been attracted by jewels or precious metals, rather than malice.

**Zombie:**
Like skeletons, zombies are undead creatures that are animated and controlled by powerful wizards or clerics. The animation ritual does not alter the condition of the zombie’s body, so most are in severe states of decay, often missing patches of skin and hair, and occasionally whole limbs. Zombies are very slow and clumsy, but they fight with determination and persistence.
